

## **Britain on the Bayside**

We have worked with Quinn & Scattini Lawyers since 2007 in relation to a number of our business matters.

Most recently we engaged Q&S for lease advice and negotiation for our second business. Our Q&S leasing lawyer immediately took an interest in our business structure and recommended a better approach (which we took to completion).

Our draft lease was explained to us in plain English and we subsequently elected to pursue a number of recommended lease changes to obtain the best possible lease in our particular circumstances. In our opinion Q&S handled our lease negotiations in a professional and pro-active manner. All of the important lease changes were agreed by the landlord and we are very happy with the result.

Based on our experience we recommend Quinn & Scattini lawyers for business matters.

Yours faithfully

Adrian & Louise Warner
